

RC 6DV CHIPPER

Powered by a 25 HP Vanguard V-twin engine with a capacity for 52.2 ft/lbs @ 2,200 rpm, the RC 6DV Brush Chipper generates high performance, while providing long-life and easy maintenance. The entire Rayco line of brush chippers is manufactured in the USA at Rayco's state-of-the-art facilities. Rayco supplies our authorized Rayco dealers with quality components to guarantee that service and replacement parts are readily available.

The RC 6DV Brush Chipper is ideal for rental applications due to its enhanced safety features and economical performance. In addition, its overall simplicity leads to reduced maintenance costs. Keeping the chipper at the correct rpm level creates a more uniform chip, uses less fuel, and minimizes vibration, which reduces wood-shifting and enhances operator safety.
