

# LS 2526 LOG SPLITTER

The LS 2526 log splitter was designed to complement the Rayco line of high performance, low maintenance stump cutters. This commercial grade machine is built on an electrically welded chassis of formed structural steel. Power is provided by a reliable, 13 HP Honda engine that develops 2500 psi of pressure and 25 tons of force. This machine gives the professional contractor a powerful job site tool that is always ready to go to work.

**Special Features:**

- The LS 2526 has a 10 second, automatic cycle time.
- A lift-off, 4-way cutting wedge is standard equipment.
- 600 lb hydraulic log lift.
- Hydraulic wedge lift.
